

Time setting

The professional HANDI® clocks can display the same information, by synchronizing through a master clock or a time server. On pulse version, the time setting is manual

Internal time base

HANDI® has its own temperature compensated TCXO time base which allows an accuracy about **0.2 sec / day** between 0° to 40°C in case of synchronization loss.

Specifications

| | |
|---|--|
| Power supply (depending on versions) | 230VAC or 110-240VAC 12-24VDC PoE (Power over Ethernet - IEEE802.3af)* |
| Certifications | CE, EN 62368, EN 55032, EN 55035, ROHS |
| IP | 40 standard |
| MTBF | 85 000 h |
| MTTR | 15 min |
| Weight | 2,2 Kg |
| Operating temperature | 0 to +50°C |
| Dimensions | Diameter : 441 mm Thickness : 62 mm |

*Cable length available 0.80m

Storage conditions

| Conditions | Temperature | Hygrometry | Maximum cumulative duration |
|------------|--------------|--------------|-----------------------------|
| Extreme | -20°C to 0°C | 10 to 85% HR | 48h |
| Extreme | 40°C to 70°C | 10 to 85% HR | 48h |
| Normal | 10°C to 40°C | 10 to 85% HR | 6 months |

The product must be switched on for 4 hours every 3 months to maintain its characteristics. See user guide for more information

Standard Dial

- Arabic figures screen printed in black
- Black lacquered hands
- Trade mark and logo GORGY TIMING screen printed on the dial

Key features

- Fast but approximate reading of time +/- 0.5 index
- Flat aluminium case
- Acrylic front cover (Polymethyl methacrylate)
- Wall mounting or ceiling mounting with bracket or flag
- Time setting by synchronization source
- LED illumination in option
- For indoor use

Remote management (on NTP version)

- Synchronisation up to 3 NTP servers
- Time zone selection and automatic summer/winter time change
- Supervision by SNMP v1, v2c
- Accessible configurations by HTTP and/or HTTP(s)
- IPv4 protocol compatibility

Synchronisation input

- AFNOR NFS 87500/IRIG B126
- NTP/SNTP (v2, v3, v4) - Ethernet 10/100 base T
- NTP Wi-Fi (IEEE 802.11 a/b/g/n standards 2.4 Ghz)
- ASCII: RS 485
- DCF 24VDC (synchro: DCF code + power: 24V in pair telecom cable)
- Pulse version*: parallel reversed minute receiver 24V

*No internal time base
