## DESCRIPTION

The Extron **TLP Pro 720T** is a 7" tabletop touchpanel with a high resolution, LCD touchscreen. In addition to more processing power and memory, Power over Ethernet - PoE allows the touchpanel to receive power and communications over a single Ethernet cable. The TLP Pro 720T features the same contemporary design as our legacy TouchLink touchpanels, allowing it to easily blend in with existing Extron technology in your facility. It is ideal for any AV application requiring a tabletop touchpanel with a fully customizable interface.

All TouchLink Pro touchpanels can be customized using Extron GUI Designer software.
